

Suma Tab

Disinfectant tablet

Description

Suma Tab D4 tab is a concentrated tablet for disinfection of all surfaces including food contact surfaces and also suitable for hygienic rinse of vegetables.

Key properties

Suma Tab D4 tab is a concentrated tablet very effective as a disinfectant for use on all food and non-food contact surfaces. The product is a stabilised chlorine tablet, easily soluble in water and very effective as a disinfectant against a wide range of micro-organisms, in all water conditions. One tablet per 10 litre water delivers 150 ppm active chlorine.

Suma Tab D4 tab contains a chlorine release agent which makes it also very effective for hygienic rinsing of vegetables, like salad and tomatoes.

Benefits

- Effective against a wide spectrum of micro-organisms, helping to improve hygiene security
- Effective at low temperatures and short contact times
- Safe for use on all surfaces, including aluminium
- Effective hygienic rinse of vegetables

Use instructions

For soiled areas, always preclean with a Diversey detergent and rinse with water.

General disinfection:

1. Prepare a solution with 1 tablet in 5 litre hand warm water
2. Apply to surfaces with cloth, brush or mop
3. Leave for 5 minutes
4. Rinse food contact surfaces thoroughly with clean water

Hygienic rinse of vegetables:

1. Rinse vegetables with water
2. Prepare a solution of 1 tablet in 20L water
3. Immerse the vegetables in the solution for at least 5 minutes
4. Rinse with clean water
